

20TH INTERNATIONAL CONGRESS ON INFECTIOUS DISEASES (ICID) 2024 MEDIA KIT

NEW – #ICID2024 Hot Topic Abstract Submission

Deadline: September 30, 2024

This session is meant to highlight important research findings made after the general Abstract and Late-Breaking Abstract submission closed. We are looking for new research or data that represents an emerging, hot topic issue especially in the African region.

This category will focus on capturing abstracts that have not been presented before in any Congresses. We are especially interested in new clinical trial results relevant to low and middle income countries, and outbreaks in these regions. Please spread the word to your colleagues!

20th INTERNATIONAL CONGRESS ON INFECTIOUS DISEASES (ICID) 2024 MEDIA KIT

NEW – #ICID2024 Travel Fund

This year, we have limited grant-funded opportunities to travel delegates to South Africa, and many infectious disease early career researchers and clinicians are asking for support to attend. Help spread the word to support infectious disease physicians, pharmacists, nurses, microbiologists, veterinarians, policymakers, government officials, and early career researchers from low to lower-middle-income countries travel to the 20th International Congress on Infectious Diseases (ICID) 2024 in Cape Town, South Africa.

We are asking for a pledge from you to reach out to your networks, institutions, industry partners, or philanthropic organizations to ASK that they donate, gift, or grant funds to ISID to contribute to a **special fund** to support travelers from LMICs to the December conference.
